#### Section4 : First Aid Measures

Inhalation :

Remove from exposure into fresh air and rinse mouth with water. Seek medical advice. Skin Contact :

Wash thoroughly with soapy water.

Eye Contact :

Flush with a large amount of water until particles are removed. Seek medical advice. Ingestion :

Drink several glasses of water to dilute ingested toner. Seek medical advice.

Immediate Medical Attention :

Immediate medical attention is not required.

Protection of Firefighters :		

Wear gloves, glasses, a mask if necessary.

#### Section6 : Accidental Release Measures

Personal Precautions :

Do not breathe in dust.

Environment Precautions :

Do not flush into sewers or watercourses.

Methods for Cleaning Up :

Confirm there is no source of fire and if there is a source, remove it. Sweep up spilled powder slowly and clean remainder with wet cloth.

#### Section7 : Handling and Storage

Handling : **Technical Measures/Precautions** Not applicable Safe Handling Advice Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust. Storage : **Technical Measures** Not applicable Storage Conditions Keep out of reach of children. Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35degrees centigrade for a long time. Avoid direct sunlight. Packaging material Not applicable Specific Use(s) : Image formation in printing machines or copiers.

Section11 : Toxicological Information
Acute Toxicity
Acute Oral Toxicity (LD50) :
5000 or over
Acute Dermal Toxicity :
Not available
Acute Inhalation Toxicity :
Not available
Local effects
Acute Skin Irritation(PII) :
Non-irritant (Rabbit) (None of hazardous situation will be caused under normal use condition.)
Acute Eye Irritation :
Slightly irritant (Based on other product test results of similar ingredients.)
Sensitization
Acute Allergenic Effects :
0 % (Marmot) (None skin sensitization.)
Specific Effects
Carcinogenicity :
Carbon black and titanium dioxide contained in this product are classified to Group 2B of IARC as the result of inhalation test in use of rat.
But oral/skin test does not show carcinogenicity.
The toner containing carbon black did not show carcinogenicity in chronic inhalation exposure test in
use of rat.
In the animal experiment with very high concentration of titanium dioxide (excessive burden of rat's
lungs clearance mechanism (overload phenomenon)), the rat alone showed lung tumor. Under a
normal use practice, the concentration should be far lower than the above; and it is assumed that
there is no such use.
Also, relation between respiratory disease and work exposure of titanium dioxide is not observed with
epidemiological survey.
Mutagenicity : Negative (Ames test)
Reproduction Toxicity : Does not contain substances listed as hazardous to reproductive health.
Teratogenic : Not available
Section12 : Ecological Information

Mobility : No da Persistence/Degradabilit : Not av	ta are available on any adverse effects on the environment. vailable

Algae Inhibition Test (IC50)	: Not classified as toxic (EU Directive 1999/45/EC)mg/l/72hr

#### Section13 : Disposal Consideration

General information:

Dispose of waste and residues in accordance with local authority requirements.

Disposal methods:

Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. Confirm disposal procedures with local regulations.

Precautions

Do not throw the toner cartridge or toner into an open flame. Hot toner may scatter and cause burns or other damage.
