### 3. HAZARDS IDENTIFICATION

#### PRIMARY ENTRY ROUTES:

Inhalation, skin, ingestion.

#### ACUTE EYE EFFECTS:

May cause slight transient irritation.

#### ACUTE SKIN EFFECTS:

May be non-irritant.

#### ACUTE INHALATION EFFECTS:

Exposure to excessive amount of dust may cause physical irritation to respiratory tract.

**ACUTE INGESTION EFFECTS:**

Low acute toxicity in animal experiment.

**CARCINOGENICITY:**

Carbon black and titanium dioxide contained in this product are classified to Group 2B of IARC as the result of inhalation test in use of rat. But oral/skin test does not show carcinogenicity. The toner containing carbon black did not show carcinogenicity in chronic inhalation exposure test in use of rat. In the animal experiment with very high concentrations of titanium dioxide (excessive burden of rat's lungs clearance mechanism (overload phenomenon)), the rat alone showed lung tumor. Under a normal use practice, the concentration should be far lower than the above; and it is assumed that there is no such use. Also, relation between respiratory disease and work exposure of titanium dioxide is not observed with epidemiological survey.

**MEDICAL CONDITION AGGRAVATED BY LONG-TERM EXPOSURE:**

Not applicable.

**CHRONIC EFFECTS:**

Slight pulmonary fibrosis has been reported in rats upon chronic inhalation exposure to a toner at 4mg/m<sup>3</sup> every day for 2 years. No pulmonary change was found at 1mg/m<sup>3</sup>. These findings show that exposure to excessive amounts of powder may cause damage to lungs. However, normal use and handling of this product as intended, does not result in inhalation of excessive amounts of powder.

## 4. FIRST AID MEASURES

**EYE CONTACT FIRST AID:**

Flush with a large amount of water until particles are removed. Seek medical advice.

**SKIN CONTACT FIRST AID:**

Wash thoroughly with soapy water.

**INHALATION FIRST AID:**

Remove from exposure into fresh air and rinse mouth with water. Seek medical advice.

**INGESTION FIRST AID:**

Drink several glasses of water to dilute ingested toner. Seek medical advice.

## 5. FIRE FIGHTING MEASURES

**FLAMMABLE PROPERTIES**

COC Flash Point: N/A

Autoignition Temperature: N/A

**FLAMMABLE LIMITS IN AIR**

LEL: N/A

UEL: N/A

**BURNING RATE:**

(mm/sec) 0.223 or below.

**UNUSUAL FIRE OR EXPLOSION HAZARDS:**

Can form explosive dust-air mixtures when finely dispersed in air.

**FIRE FIGHTING INSTRUCTIONS:**

No special fire protecting method is required. Sprinkling or fire extinguishers can be used.

## 6. ACCIDENTAL RELEASE MEASURES

### **SPILL / LEAK PROCEDURES:**

Confirm there is no source of fire and if there is a source, remove it. Sweep up spilled powder slowly and clean remainder with wet cloth.

### **MISCELLANEOUS:**

Do not breath in dust. Do not flush into sewers and watercourses.

## 7. HANDLING AND STORAGE

### **HANDLING PRECAUTIONS:**

Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust.

### **STORAGE REQUIREMENTS:**

Keep out of reach of children. Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35 degrees centigrade for a long time. Avoid direct sunlight.
